

Om Narayan Pandit

AIML Engineer | B.Tech | SIT Pune

panditom2003@gmail.com | +91 7908163735 | om-narayan-pandit.vercel.app | Pune, India

PROFESSIONAL SUMMERY

Research-driven AIML engineer with a bias for clarity — I iterate fast, debug methodically, and document reasoning, not just results. My dual background in AI/ML and Business Management keeps me grounded in both model performance and real-world impact. I work well independently and thrive in cross-disciplinary teams where technical depth meets domain context.

EDUCATIONAL DETAILS

Symbiosis Institute of Technology, Pune <i>B.Tech – Artificial Intelligence & Machine Learning CGPA : 6.5</i>	2023-2027
Symbiosis Institute of Business Management, Pune <i>Diploma in Business Management CGPA : 5.8</i>	2025-2026
Delhi Public School, Farakka <i>Class XII (CBSE Intermediate) 76.8%</i>	2020-2022
Delhi Public School, Farakka <i>Class X (CBSE Matriculate) 75.0%</i>	2018-2020

WORK EXPERIENCE

Full Stack Web Application Developer – NGO Kshitij, Pune	2025 6 Months
Built an AI personality-analysis system for teenager behavioural insights; reduced manual assessment time and supported programme directors with outcome metrics.	

TECHNICAL SKILLS

Core AI:	ML, DL, RL, NLP, Computer Vision, Gen AI
Frameworks:	PyTorch, TensorFlow, Stable-Baselines3, SHAP
Web & API:	Flask, React, Node.js, Express.js, Flutter
Databases:	MySQL, MongoDB
Languages:	Python, Java, C, SQL, JavaScript
Data:	Pandas, NumPy, Matplotlib, HMM

SOFT SKILLS

Leadership • Design Thinking • Organisational Behaviour • Critical & Creative Thinking

PROJECTS

- BehaveFinRL — Prospect Theory RL Trading Agent**
- PPO agent with Kahneman-Tversky reward shaping, HMM market-regime detection, KernelSHAP explainability, and a Flask dashboard
- Spatial AI Digital Twin for Human Centric Industrial Operations**
- Real-time human activity monitoring in industrial environments using pose estimation to detect unsafe behaviours and trigger automated safety alerts
- Krishi Saarthi — Voice-First Rural Commerce Platform**
- IndicWhisper ASR/NLU pipeline for Hindi voice listings, digital udhar ledger, and SMS/USSD fallback targeting rural vendors with limited digital literacy.
- Financial Awareness Chatbot**
- Designed a privacy-focused conversational agent addressing financial fraud queries and promoting safe digital banking practices for first-time users
- Plant Disease Detection System**
- CNN image classifier for plant disease identification from leaf photos; led to a published patent at the Indian Patent Office (Dec 2025).

ACHIEVEMENTS & AWARDS

- Selected for YUKTI / IIC Regional Meet for an innovative project idea (showcased at regional level)
- Semi-Finalist at NASA Space App Challenge 2025 Hackathon
- Finalist at HACK x ACM Hackathon 2025
- Mark-Up Award for scoring 97% in Computer Science in CBSE Board Examination 2022

PATENTS & PUBLICATIONS

Patent Publication

System and Method for Automated Plant Disease Detection Using Deep Learning Image Classification — Indian Patent Office, December 2025.

CERTIFICATIONS

Generative Adversarial Network – DeepLearning.ai
IOT and Robotics Training Certificate – Corizo
SQL for Data Science – Great Learning
